Attention: Mr. Larry Frost

Subject: Duke Energy - Marshall Steam Station
FGD Landfill - Solid Waste Facility Permit No: 18-09
Industrial Landfill - Solid Waste Facility Permit No: 18-04
Asbestos and C&D Disposal Change

Dear Mr. Frost:

Per our discussion earlier this week, this letter is to document Duke Energy's Marshall Steam Station's intent to permanently close on site landfill Permit No: 18-04. The landfill has been used for disposal of asbestos and site C&D wastes. This landfill will stop receiving wastes on or before June 30, 2008, with closure work during 2008 following approval of the landfill's Closure/Post-Closure Plan.

As requested by Duke Energy on May 30, 2007 and approved in your letter of February 29, 2008, disposal of asbestos and site C&D material after June 30 will be to the site FGD landfill, Permit No: 18-09.

If there are any questions, please contact me at 980-373-7892.

Sincerely,

Christopher D. Hallman, P.E.
